

# Decided to land? Stick with the plan.

A safe landing is preceded by  
a sequence of safe decisions.  
Don't interrupt that.

GFA Safety Poster RG 13

Flaps...set—

Dumping ballast...wheel down  
....starting pre landing checks.  
She's just switched from safe  
soaring pilot to safe landing pilot.

That pilot's flying straight  
through this thermal!
